FASEB LAUNCHES WEB-PORTAL FEATURING AWARDS FOR STUDENTS AND SCIENCE EDUCATION MENTORS

Bethesda, MD - The Federation of American Societies for Experimental Biology (FASEB) has launched a new [website](#), which provides information about science training and education awards for students and science mentors made by FASEB's member societies. The FASEB Science Training and Education Awards webpage highlights over 50 unique initiatives including information on scholarship opportunities, travel awards, and fellowships. It also houses links to FASEB's Society Awards and Resources to Enhance Diversity in Science websites. "This new tool will connect students with information, resources, and opportunities that will help them successfully pursue scientific careers. This website will also pull together awards and resources for science mentors doing a superb job of educating the next generation of scientists." said FASEB President, William T. Talman, MD.

FASEB will update this website regularly. To view the site, please visit: <http://bit.ly/jyzJl0>

FASEB is composed of 23 societies with more than 100,000 members, making it the largest coalition of biomedical research associations in the United States. FASEB enhances the ability of scientists and engineers to improve—through their research—the health, well-being and productivity of all people. Our mission is to advance health and welfare by promoting progress and education in biological and biomedical sciences through service to our member societies and collaborative advocacy.
