

The Federation of American Societies for Experimental Biology (FASEB) is pleased to invite new residents to share our splendid facilities and become neighbors with some of the top biomedical societies and associations in the world.

Location

The FASEB Beaumont campus was established in 1954 and is situated on eleven acres at 9650 Rockville Pike in Bethesda, Maryland. Just north of the National Institutes of Health and south of the White Flint district, the campus is located minutes from I-495 and I-270. The 11.25 acre campus is a hidden oasis with six acres of green space which provide a quiet, estate-like setting with century old trees, boxwood gardens and seasonal flower beds for tenants to enjoy.

Space Available

Approximately 5,000 square feet of office space is available in our Class A East Wing and 1,000 square feet in our central, neoclassical styled Lee Building. The Lee Building is five levels and is serviced by three elevators. The building is connected by covered walkway to a four level parking garage. The campus atmosphere is relaxed while offering a professional, functional and appealing environment.

Lease terms

Whether you need temporary office space in a transition period or are looking for a new place for your organization to call home, lease terms are flexible and will be tailored to meet your needs.

Contact

For additional information or to arrange a tour of the campus, please contact Richard Dunn, Director of Campus Services at 301-634-7046 or rdunn@faseb.org.

Campus Community

There is a sense of community on the campus and our tenants are part of what makes this possible. At FASEB, we truly see ourselves as an extension of each organization and aim to always provide consistent and reliable services.

Many of our tenants look to FASEB to provide, or support, their core infrastructure functions. Whether providing office space or services such as printing, mailing, and IT, we do whatever it takes to support their daily activities running smoothly and obstacle-free.

Facilities

- Owner occupied and managed
- On-site maintenance staff
- Main Lobby reception area
- Campus recycling program
- Attractive landscaping
- On-site storage facilities

Amenities
