You must RSVP by the Monday, May 22<sup>nd</sup> to participate in the webinar

The Trump Administration proposed deep cuts in funding for the federal science agencies in 2018. Congress is now considering the President's proposal. This webinar will provide an overview of the recommended cuts, the timeline and key steps involved in the federal budget process, and guidance on what individual scientists can do to urge lawmakers to reject the President's plan.

### Learn how you can advocate for research funding

- Ensuring your message is effective
- Knowing when to take action and how to have the greatest impact
- Developing strong relationships with elected officials

### Discover FASEB advocacy resources

- Get factsheets on the role of NIH in your state and district
- Use FASEB's tools to request a meeting with lawmakers
- Learn how to write a letter-to-the-editor
