The National Institutes of Health (NIH) is the nation’s primary medical research agency, supporting research efforts in all 50 states and the District of Columbia. Its mission is to seek fundamental knowledge about the nature and behavior of living systems and the application of that knowledge to enhance health, lengthen life, and reduce the burdens of illness and disability.

NIH Appropriations

WISCONSIN BY THE NUMBERS

- $386 million in NIH funding
- 43 NIH-funded institutions
- 883 NIH grants awarded
- 7 Congressional districts with NIH grants
