Federal Research Funding
FY 2016 District Information

Florida’s 21st District

In this district, NIH awarded $20,459,443 to 1 institution.

National Institutes of Health
NIH is the nation’s primary medical research agency. More than 80% of NIH funding is distributed through approximately 50,000 competitive grants to 300,000 researchers at 2,500 universities and other institutions throughout the U.S.

In this district, DOE SC awarded $1,256,935 to 1 institution.

Department of Energy Office of Science
DOE SC is the nation’s largest funder of basic physical sciences research; DOE also manages ten world-class national laboratories that provide government, university, and industry scientists with access to sophisticated, cutting-edge technologies.
