National Institutes of Health
State Funding Facts for FY 2016

The National Institutes of Health (NIH) is the nation’s primary medical research agency, supporting research efforts in all 50 states and the District of Columbia. Its mission is to seek fundamental knowledge about the nature and behavior of living systems and the application of that knowledge to enhance health, lengthen life, and reduce the burdens of illness and disability.

INDIANA
BY THE NUMBERS

$225 million in NIH funding
