**Job Title:** Information Technology Solutions Specialist

**Classification:** Exempt

**Reports to:** Director, IT

**Date:** 10/05/2020

**Summary/Objective**
The Information Technology Solutions Specialist will work within the IT Department and report to the IT Director. The role provides support to APS business solutions including, but not limited to its Association Management System (Personify), Content Management System (SiteFinity), and other critical business systems. The role requires a certain degree of technical skills and a proven ability to provide support to end users in a positive and assuring manner.

**Essential Functions**
Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

1. Coordinate with systems and application business owners and users to understand business problems and develop effective solutions.
2. For critical business systems and applications (AMS, FMS, CMS, CRM), maintain subject matter expertise, provide support to projects and production activities, and resolve technical issues that may arise.
3. Recommend business and risk mitigation strategies to achieve effective solutions and goals that are of benefit to APS.
4. Work with management to identify new business opportunities and write business cases within company business architecture and acceptable procedures.
5. Collaborate with IT staff in the planning, managing, and executing of assigned tasks and projects using standard project management principles and standards.
6. Willingness to learn new systems, their functions and features, in order to support end users.

**Other Duties**
Please note this job description is not designed to cover or contain a comprehensive listing of activities, duties or responsibilities that are required of the employee for 6120 Executive Boulevard, Suite 600, Rockville, MD 20852-4911 | 301.634.7164 | the-aps.org
this job. Duties, responsibilities and activities may change at any time with or without notice.

Competencies
Some examples listed below:
1. Vendor management and communication
2. Project Management
3. Customer service
4. Business Acumen
5. SQL skills
6. Light HTML skills
7. A good problem-solving attitude
