The National Science Foundation (NSF) supports research in science, mathematics, and engineering; integration of knowledge across these fields; and development of the nation’s STEM workforce. In this way, NSF promotes the nation’s health, economy, security, and global leadership.

### NSF Funding in New Hampshire

- **$50.8M** in total funding
- **111** grants & contracts
- **2** congressional districts
- **1** INCLUDES Grant to broaden STEM participation

### Top NSF-Supported Sites

- Dartmouth College
- University of New Hampshire
- Cold Regions Research and Engineering Laboratory (U.S. Army)
- Plymouth State University
- Hubbard Brook Research Foundation
- Keene State College
- Franklin Pierce University

### Scientific Research in New Hampshire

- **27** NSF Graduate Research Fellowship Program awards offered in FY 2019-20 to students who completed their bachelors in New Hampshire
- **176** science and engineering doctoral degrees awarded in New Hampshire in 2019 (Survey of Earned Doctorates, NCSES)
- **$675K** awarded to three New Hampshire businesses in FY 2018-19 through the NSF “America’s Seed Fund” program for R&D of technologies with potential commercial application
- **$1.85B** total science and engineering R&D expenditures in New Hampshire across all sectors—industry, biotech, academia, and government—in 2017 (National Patterns of R&D Resources, NCSES)
